

Creative Interface API

1.Introduction

Materials : A video or image used for advertising

Creative: A collection of advertising materials on a screen of a certain specification

Creative Group: Combination of creative works on screens of various sizes

When submitting advertising materials, use the creative group as a unit. Submit one creative group per request. The following is an example of the hierarchical structure of the smart screen creative group:

Note: For the 25-inch smart screen in the same creative group, either the split-screen mode or the full-screen mode can be adopted.

2.Object

2.1 CreativeGroup

Creative group: a combination of creatives with various screen sizes

Attribute	Type	Definition
id	string	Creative group ID. The requester does not need to send it. It is the unique identifier returned by the service provider to the requester. The requester needs to record it and use this field when setting the bottom creative group and asking for traffic; use this field when querying the details of the creative group
duration	float	Duration, seconds, default 15s. 2.5s~210s and an integer multiple of 2.5
lastmod	long	Unix timestamp of the last modification, accurate to milliseconds
creatives	object array; required	Creative list, one creative corresponds to the material of one specification screen. Currently, four creatives are required for four types of smart screens. If there is no creative for a certain specification screen, the default material can be uploaded. The duration of the creative needs to be consistent with the duration of the creative group.
audit	object	Audit Information

Creative

Creative: A set of materials on a screen of a certain specification

Attribute	Type	Definition
devicestyle	string; required	Equipment specifications
materials	object array; required	Material list. Currently, split screen requires two materials, and full screen requires one. The order of the materials in the list has meaning. If it is a split screen, for example, a 19-inch screen, the 0th material represents the material on the upper screen, and the 1st material represents the material on the lower screen. In the case of split screen, the materials on the upper and lower screens cannot be videos at the same time.

2.2Material

Material: a picture or video;**For 19-inch screen material, parameters should be passed in the order of upper and lower screens**

Attribute	Type	Definition
id	string; required	Material ID, submitted by the submitter; it is recommended that different material IDs be different
iurl	string; required	Material download link
filename	string; required	The file name of the material. The file name of the picture material ends with.jpg, and the video needs to end with.mp4. The byte length of the file name cannot exceed 60 bytes under UTF-8 encoding (constrained by the receiving end); constrained by the receiving end, when submitting the creative group, for different requests and within the same request, the filename of each object in the materials list must be different (regardless of whether the material itself is the same material)
display	object; required	Creative display related information (Display)

2.3Display

Attribute	Type	Definition
mime	string; required	MIME type (e.g., “video/mp4” , “image/jpeg”)
duration	float	Duration, seconds, default 15s.

2.4Audit

Creative Group Review Information

Attribute	Type	Definition
status	integer	Creative Group Review Status
feedback	string	Audit feedback, not required. When Audit Status is 1 (pending review), this field returns empty; when Audit Status is 502 (creative group production failed), it returns a non - required string description, which is only used to troubleshoot problems and is not recommended for external display; when Audit Status is 3 or 4, it returns a parsable string (parsable as json), containing the manual audit results of each material. The requester can parse and display it. For the specific form, see the sample message
lastmod	long	Unix timestamp of the last modification, accurate to milliseconds

3.Enumeration

3.1Device Style

Equipment specifications

Value	Definition
smart19	19-inch smart screen
smart25	25-inch smart screen
smart32	32-inch smart

	screen
smart55	55-inch smart screen

3.2Audit Status

Review status, 1 (pending review), 3 (review passed), 4 (review rejected), 502 (custom status - creative group generation failed, cannot be delivered); for status 4 and 502, the requester needs to resubmit the creative group and the server level will generate a new creative group

Value	Definition
0	Custom state - processing, not publicly displayed, waiting to transfer the creative to Alibaba Cloud Ali Cloud Aliyun
1	Pending review, cannot be delivered (initial state after successful creative group submission, will change to one of the states 3, 4, 502 depending on subsequent material verification and manual review)
3	Approved for release
4	Rejected by review, cannot be launched
502	Custom state - creative group generation failed and cannot be delivered; when the material or creative group specification verification fails, or the material transfer fails, the creative group will eventually change to this state. The requester should verify the material format and ensure that the material URL is readable to avoid this state as much as possible

4.HTTP Status Code

The http status code returned by the interface

Code	Name	Description
200	OK	The request was successful.
400	Bad Request	The request could not be interpreted successfully.
401	Unauthorized	The request did not contain correct authentication information.
404	Not Found	The resource does not exist.

429	Too Many Requests	The bidder has exceeded the rate limit set by the exchange and must wait before trying again.
500	Internal Service Error	The exchange has encountered technical difficulties.

5.Interface

The interface communication uses the HTTP interface, and the Content - Type is application/json.

5.1Submit the creative group

Generate a new creative group for each submission

Interface

POST {baseUrl}/management/v1/bidder/{bidderId}/creativeGroups

Request parameters

PathVariable:

Attribute	Type	Description
bidderId	string; required	bidder id, the unique id assigned

RequestBody:

Attribute	Type	Description
creativeGroup	object; required	CreativeGroup Request Object

Return parameter

Attribute	Type	Description

creativeGroup	object	CreativeGroup Return Object
---------------	--------	--------------------------------

Example

Request:

POST <https://api.superads.com/management/v1/bidder/496/creativeGroups>

```
{
  "duration":15,
  "creatives":[
    {
      "devicestyle":"smart19",
      "materials":[
        {
          "display":{
            "mime":"image/jpeg",
            "duration":15
          },
          "id":"123",
          "iurl":"http://cdn.dsp.com/iurls/123.jpg",
          "filename":"test.jpg"
        },
        {
          "display":{
            "mime":"video/mp4",
            "duration":15
          },
          "id":"456",
          "iurl":"http://cdn.dsp.com/iurls/456.mp4",
          "filename":"test1.mp4"
        }
      ]
    }
  ]
}
```

```
},
{
  "devicestyle":"smart25",
  "materials":[
    {
      "display":{
        "mime":"video/mp4",
        "duration":15
      },
      "id":"789",
      "iurl":"http://cdn.dsp.com/iurls/789.mp4",
      "filename":"test3.mp4"
    }
  ]
},
{
  "devicestyle":"smart32",
  "materials":[
    {
      "display":{
        "mime":"image/jpeg",
        "duration":15
      },
      "id":"901",
      "iurl":"http://cdn.dsp.com/iurls/901.jpg",
      "filename":"test4.jpg"
    }
  ]
},
{
  "devicestyle":"smart55",
```

```
"materials":[
  {
    "display":{
      "mime":"image/jpeg",
      "duration":15
    },
    "id":"103",
    "iurl":"http://cdn.dsp.com/iurls/103.jpg",
    "filename":"test5.jpg"
  }
]
}
```

Return:

```
{
  "audit":{
    "lastmod":1528221112000,
    "status":1
  },
  "id":"dfdsdf238293",
  "lastmod":1528221112000
}
```

5.2 Query the list of creative groups whose status has changed or newly created within the specified time range

The interface returns a collection of creative groups based on the query conditions. The time span of the query conditions cannot exceed 24 hours.

Interface

GET {baseUrl}/management/v1/bidder/{bidderId}/creativeGroups?auditStart={auditStart}&auditEnd={auditEnd}

Request parameters

PathVariable:

Attribute	Type	Description
bidderId	string; required	bidder id

QueryString:

Attribute	Type	Description
auditStart	long; required	Indicates that the advertisement whose lastmod of the query audit is greater than or equal to this value, accurate to milliseconds
auditEnd	long	Indicates that the lastmod of the query audit is less than the advertisement of this value, accurate to milliseconds, default to the current timestamp

Return parameter

Attribute	Type	Description
creativeGroups	CreativeGroups array	List of creative groups that meet the query criteria

Example

Request:

GET <https://api.superads.com/management/v1/bidder/496/creativeGroups?auditStart=1528282813000&auditEnd=1528306992000>

Return:

```
[  
  {  
    "audit":{
```

```
"feedback":"The resolution of the 32-inch screen material is illegal",
"lastmod":1528288587000,
"status":502
},
"id":"gtry66856h5thy",
"lastmod":1528221112000
},
{
  "audit":{
    "feedback":"[{\"id\":\"19_b1\",\"description\":\"Does not comply with advertising law\",\"result\":0},{\"id\":\"19_b2\",\"description\":\"Pass\",\"result\":1},{\"id\":\"25_b1\",\"description\":\"Pass\",\"result\":1},{\"id\":\"32_b1\",\"description\":\"Pass\",\"result\":1},{\"id\":\"55_b1\",\"description\":\"Pass\",\"result\":1}]",
    "lastmod":1528289509000,
    "status":4
  },
  "id":"fd56464366",
  "lastmod":1528289509000
},
{
  "audit":{
    "feedback":"[{\"id\":\"19_b1\",\"description\":\"Pass\",\"result\":1},{\"id\":\"19_b2\",\"description\":\"Pass\",\"result\":1},{\"id\":\"25_b1\",\"description\":\"Pass\",\"result\":1},{\"id\":\"32_b1\",\"description\":\"Pass\",\"result\":1},{\"id\":\"55_b1\",\"description\":\"Pass\",\"result\":1}]",
    "lastmod":1528289509000,
    "status":3
  },
  "id":"09897kjpg56",
  "lastmod":1528289509000
}
```

```
},
{
  "audit":{
    "lastmod":1528306991000,
    "status":501
  },
  "id":"34dfdyg63tgrsf",
  "lastmod":1528222962000
},
{
  "audit":{
    "lastmod":1528306991000,
    "status":1
  },
  "id":"43545435",
  "lastmod":1528222962000
}
]
```

5.3Query the status of the creative group

Interface

GET {baseUrl}/management/v1/bidder/{bidderId}/creativeGroups/{id}

Request parameters

PathVariable:

Attribute	Type	Description
bidderId	string; required	bidder id
id	string; required	The id of CreativeGro

		up (the id returned by the service provider when submitting the advertisement)
--	--	--

Return parameter

Attribute	Type	Description
creativeGroup	CreativeGroup	Creative Group

Example

Request:

GET <https://api.superads.com/management/v1/bidder/496/creativeGroups/dsfd121>

Return:

```
{
  "id": "dsfd121",
  "duration": 15,
  "audit": {
    "feedback": "The resolution of the 32-inch screen material is illegal",
    "lastmod": 1528288587000,
    "status": 502
  },
  "lastmod": 1528288587000
}
```

5.4Upload creative material qualification documents

Interface

Upload relevant qualification documents for creative materials for creative review

POST {baseUrl}/management/v1/bidder/{bidderId}/qualification

Request parameters

PathVariable:

Attribute	Type	Description
productNa me	string; required	Product Line
url	string; required	CreativeGroup ID (the ID returned by the service provider when submitting an advertisement)
fileName	string; required	File name, including file suffix

Return parameter

```
{  
  "success":true,  
  "code":"0",  
  "message":""  
}
```
